

IV EWDSy

Fourth European Workshop in Drug Synthesis

The "Fourth European Workshop in Drug Synthesis" (IV EWDSy) is to be held from **May, 27th to 31st 2012** in Certosa di Pontignano, on the outskirts of the beautiful city of Siena, in Tuscany (Italy).

The second and third editions (www.unisi.it/eventi/ewds/) saw the participation of renewed international speakers and was considered a high quality event.

"Overall, the II EWDSy was a very useful and extremely well organized event that certainly can be considered as a small germ in the crowded agenda of courses and workshops dedicated to organic chemistry."

From SYNFORM, August 2008

This edition will be focused on new **Sustainable Processes for Medicinal Chemistry**.

This year the most important aspects of IV EWDSy are:

- ♦ morning lectures of well known researchers
 - ♦ afternoon working session
- ♦ selected short presentation from brilliant young researchers
